<b>TABLE 7 - 1995 CFL TEAM WEEKLY RECEIVING STATS</b>	<b>24-25</b>
<b>TABLE 8 - 1995 CFL WEEKLY TEAM PASSING STATS</b>	<b>26</b>

## The Problem

1995 CFL Statistics (Rushing, Receiving and Passing) are based on game summary values from media reports, supplemented by 1995 CFL Weekly Statistical packages. Due to how statistics were reported for some games (only top 2 rushers/receivers per team listed) or other omissions and errors, the sum of game statistics does not match the end of year totals for some players. In addition, game statistics can be corrected after the initial publishing of game summary boxscores.

## The Puzzle

As many corrections as possible have been made. However, 1995 has proved to be the most difficult season we've dealt with yet, leaving many players totals out of balance with official league totals by substantial amounts. CFLdb has added the data as is, and is hoping others, through ingenuity and perhaps finding alternate sources for some missing data, can complete the picture of the 1995 CFL Statistical season on CFLdb.

This is a puzzle, but with some of the pieces missing, and all pieces fit together the same, and it is upside down, so you can't really tell if the piece makes sense until all the pieces are together and you can see the whole picture.

## Why is this important?

CFLdb is striving to bring detailed statistical history accessible to everyone in an electronic format. This requires game level statistics, not only season records or other highlights found in record books. Completing this information for 1995 will provide another year that can be added to player career totals without concern over discrepancies and errors.

### COLOUR KEY USED THROUGHOUT

	CFLdb value is greater than CFL value
	CFLdb value is less than CFL value
